

FlowBelow™

Tractor AeroKit™

THE STANDARD IN TRACTOR EFFICIENCY

What is the FlowBelow Tractor AeroKit™?

up to
2.23%
fuel savings*

The FlowBelow Tractor AeroKit is a **complete aerodynamic system** that addresses the drag-intensive turbulence created by the exposed rotating wheels of the tractor.

* Fuel saving claims based on third party SAE J1321 fuel economy testing using EPA SmartWay guidelines

WHEEL COVERS

REAR FAIRINGS

Why Spec the Tractor AeroKit™?

- ✓ **OPTIMIZED AERODYNAMICS**
Improve the fuel efficiency and profitability of your fleet
- ✓ **SMART, DURABLE DESIGN**
Instant access to all areas of your wheels when you need it
- ✓ **OEM APPROVED**
Factory installed with OEM fuel efficiency packages

Optimized Aerodynamics

The Tractor AeroKit™ was designed using advanced computational fluid dynamics to **optimize turbulent airflow** around the tractor tandem. Our team of engineers has designed an **innovative and durable** solution proven to save fleets thousands of dollars every year based on **third party SAE J1321 fuel economy testing using EPA SmartWay guidelines** and is currently installed on thousands of fleets.

Smoother Airflow with **FlowBelow Tractor AeroKit™**

Effective. Tested. Proven.

- ✓ **SAE J1321 TESTED**
- ✓ **WIND TUNNEL TESTED**
- ✓ **CFD TESTED**
- ✓ **REAL WORLD FLEET TESTED**

Cutting-Edge Design Meets Simplicity

The result of designing a product alongside mechanics and drivers is a product that works for mechanics and drivers. The Tractor AeroKit™ is installed directly to the 5th wheel rail and the frame rail of the truck in as little as one hour. Once installed, it's business as usual.

- ✓ **HEAVY DUTY SPRING-LOADED MUDFLAP HANGERS INCLUDED**
- ✓ **ROBUST DESIGN THAT EXCEEDS OEM STANDARDS**
- ✓ **EASILY REMOVED & RE-INSTALLED FOR MULTIPLE TRADE CYCLES**
- ✓ **OPTIONS FOR WIDE BASE, DUALS, LIFT AXLES & TAG AXLES**
- ✓ **COMPATIBLE WITH TIRE CHAINS, ICE, SNOW & EXTREME WEATHER**

OPTIONAL 'QUICK-RELEASE' FAIRING

Need complete access for max chains? We have you covered. Ask for our removable 'quick-release' center fairing option.

Check out our photo gallery and see how great your truck will look with the Tractor AeroKit. With many color options, the choice is yours.

'Quick-Release' Wheel Covers

Drivers and mechanics require **immediate access to the wheels** for inspection and maintenance. In 2012, FlowBelow designed and patented the first and only aerodynamic wheel cover that fits securely to the wheel hub, does not damage the wheel, and allows the cover to be removed and reattached in seconds with a **simple push and turn motion**. With over 150,000 sets of wheel covers on the road, they are proven, effective, and durable.

- ✓ **INSTANT AND TOOL-FREE ACCESS TO THE WHEEL END**
- ✓ **PERFORMANCE IN THE MOST EXTREME CONDITIONS**
- ✓ **AVAILABLE WITH LOCKING OPTION**
- ✓ **WHEEL IS REMOVABLE EVEN WITH LATCH INSTALLED**
- ✓ **COMPATIBLE WITH TIRE INFLATION SYSTEMS**

MOUNT IT AND FORGET IT

The wheel cover latch attaches easily to wide base and duals and is **durable in all weather**, including snow. Once installed, no additional maintenance is required.

Check out our video gallery and see how quickly our wheel covers attach and detach, but don't blink or you could miss it.

Image is Everything

With our **custom fairing colors and wheel covers** you can bring out the best in your brand while increasing your drivers' pride in their equipment.

Whether it's **long haul or regional runs**, customers will be proud to support companies with sustainable practices.

- ✓ **POLISHED CHROME WHEEL COVERS**
- ✓ **FULLY CUSTOM COLORS AVAILABLE**
- ✓ **REDUCE CARBON FOOTPRINT**
- ✓ **SUPPORT GREEN INITIATIVES**

What Our Customers Say

“We performed several fuel and durability tests with the FlowBelow Tractor AeroKit package. As a policy, MVT always verifies third party testing with internal testing. The results of the internal testing were positive and in alignment with FlowBelow’s fuel savings claims. Finally, after fuel validation we confirmed durability and driver acceptance with a group of trucks for over a year. In the end, we placed an order with FlowBelow for 1,200 Tractor AeroKits and are currently installed on 80% of our fleet. There is no better wheel cover or complete system on the market that can help improve the aerodynamics around the wheels of the tractor.”

Royal Jones - CEO, Mesilla Valley Transport

“We’ve been using the FlowBelow Tractor AeroKit on over 800 trucks for over two years and have had an overall excellent experience. The system has helped to increase our fleet average fuel economy by approximately 2% and we consider it to be part of our standard tractor spec on both Freightliner and International trucks. On the maintenance side, our mechanics are very pleased with the wheel cover design which provides instant access to the wheel end.”

Brad Pinchuk - President, Hirschbach Motor Lines

“We incorporated FlowBelow products about 2 years ago, and they have definitely helped us with our fuel economy and positively affected our bottom line. Our customers are looking for us to be a green fleet and to reduce our carbon footprint, so fuel economy is a big piece of the puzzle for us. The product has held up for us very well, and the support the team at FlowBelow provides allows us to have a great partnership.”

Jeff Harris - Vice President of Maintenance, USA Truck

Now Available Through All Major Truck OEMs

The FlowBelow Tractor AeroKit™ is available with factory or PDI installation through all Freightliner, Kenworth, Peterbilt, International, Volvo, and Mack dealers. Contact your dealer to spec the Tractor AeroKit and increase the profitability of your fleet.
